**Subject:** Re: Email Introduction

Hi Cheryl,

Thanks for the introduction to Kim. If it's okay with you, then I will go ahead and add you both (Cheryl and Kim) to our participant roster for the SPC's Collaborative on Multi Material Flexible Recovery. This is the group that put together that workshop last week on chemical recycling and will continue to look at this topic in the future.

In addition, the SPC will likely have some other future emerging work around this topic and I am happy to keep you in the loop! Not sure if you have seen our course on chemical recycling, but you can view it [here](#) if you are logged into the SPC site. Let me know if you have any access problems for that or other questions.

All the best,

Tristanne

Hi Tristanne,

This is an email introduction to Kim Cochran who is also a branch chief in the Resource Conservation and Sustainability Division. Kim currently manages our electronics and international work and we are transitioning the primary lead responsibilities for our plastics work from Ron to Kim. Please include Kim in future communications related to plastics, especially those around chemical recycling. I hope you have a great weekend and I look forward to seeing you in the distant future once we get past the current situation.

*Cheryl*
